What role do you believe Wyoming and/or local government should play in supporting arts, culture and the humanities to enhance economic and community development?

This is a local government issue and not state control. Community needs to stay local.

What role do you believe Wyoming and/or local government should play in supporting arts and culture to provide a comprehensive education for Wyoming K-12 students?

The government is not meant to provide for this. This needs to be addressed by local school districts and the needs they see for their students.

What role do you believe Wyoming and/or local government should play in supporting arts and culture, diversifying the local economy, and enhancing quality of life?

None of this is the state government's job. "Enhancing quality of life" could be related to the constitutional rights- I would have to do more research and get back to you on how the state could play a role in this.
